TO: CMSP Contracted Health Centers

SUBJECT: Path to Health Invitation to Participate

We'd like to invite your health center to join health centers across California that are currently participating in the Path to Health Pilot Project. Path to Health provides primary care for undocumented adults 26 years and older that are enrolled in an emergency services only (restricted scope) Medi-Cal program aid code and reside in one of the thirty-five (35) CMSP counties. Covered Path to Health services include:

- Office visits, preventive screenings, adult immunizations with primary care providers or specialists at contracted health centers
- Prescription medications (specialty medications excluded) with \$5 copay and \$1,500 limit

For a complete listing of Path to Health covered procedures and prescription medications, please visit <https://mypathtohealth.org/resources/>.

Contracted health centers enroll eligible patients in Path to Health through a secure online enrollment system. Billing for Path to Health covered services can begin the same day the health center enrolls an eligible patient. Reimbursement for covered services is based upon the health center's CMSP contracted encounter rate.
